

Dear Pastor,

Where has today's cultural and political tide taken you and your congregation? There's no doubt about it - our American culture is experiencing a dramatic shift in how people think about God, Jesus Christ, and those of us who are called "Christians." Unfortunately, our public image as "Christ followers" is not favorable right now. While people today are crying out for meaning, belonging, and true peace -- everything that the good news offers -- our voice in sharing the gospel of Christ's Kingdom has been compromised.

How did this happen?

**We've abandoned our true identity as God's faithful stewards, allowing a host of counterfeit identities to lure us away.**

*The Steward Declaration* was conceived and written by a team of Christian thought leaders who care deeply about seeing Christians fulfill their role as ministers of reconciliation in this broken world. *The Steward Declaration* will challenge and encourage you to lead your congregation away from the bondage and anxiety of two kingdom living and toward the freedom and joy of one kingdom living.

For you, as a pastor, *The Steward Declaration* is your starting point to help the bride of Christ reclaim her true identity. Along with *The Steward Declaration*, we've compiled and developed several outstanding resources that will aid you in embracing your own steward identity and helping your congregation to do the same.

We'd love to have you join us on this incredible journey.

Blessings and Deep Peace!
